

HIPPA PRIVACY NOTICE

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN OBTAIN ACCESS TO THIS INFORMATION.

PLEASE REVIEW IT CAREFULLY

INTRODUCTION

Athens Cardiac Clinic, PC is required by law to maintain the privacy of “protected health information.” “Protected Health Information” includes any identifiable information that we obtain from you or others that relates to your physical or mental health, the health care you have received, or payment for your health care.

As required by law, this notice provides you with information about your rights and our legal duties and privacy practices with respect to the privacy of protected health information. This notice also discusses the uses and disclosures we will make of your protected health information. We must comply with the provisions of this notice, although we reserve the right to change the terms of this notice from time to time and to make the revised notice effective for all protected health information we maintain. You can always request a copy of our most current privacy notice from our practice.

PERMITTED USES AND DISCLOSURES

We can use or disclose your protected health information for purposes of *treatment, payment and health care operations*. For each category we will explain what we mean.

Treatment means the provision, coordination or management of your health care, including consultations between health care providers regarding your care and referrals for health care from one health care provider to another.

Payment means activities we undertake to obtain reimbursement for the health care provided to you, including determinations of eligibility and coverage and utilization review activities. For example, prior to providing health services, we may need to provide to your health plan information about your medical condition to determine whether the proposed course of treatment will be covered. When we subsequently bill your health plan for the services rendered to you, we can provide them with information regarding your care if necessary to obtain payment.

Health care operations means the support functions of our practice related to *treatment and payment*, such as quality assurance activities, case management, receiving and responding to patient complaints, physician reviews, compliance programs, audits, business planning, development, management and administrative activities. For example, we may use your medical information to evaluate the performance of our staff when caring for you.
